

CONTENTS

Categorical properties of free algebras	
S. A. HUQ	81
Prime ideals in the algebra of holomorphic functions	
of several complex variables	
Niro YANAGIHARA	83
The radius of univalence and starlikeness of some	
classes of analytic functions	
Ming-Po CHEN	91
Common fixed points theorems of two mappings	
Kun-Jen CHUNG	97
Bi-normal semigroups	
Nobuaki KUROKI	107
The Frattini subalgebra of infinite-dimensional lie algebras	
Noriaki KAMIYA	113
Some expansion theorems and generating rerations	
for the H -function of several complex variables	
H. M. SRIVASTAVA and Rekha PANDA	119
Arithmetic in block designs III	
Takeo NAKANO	139
Teiji Takagi: a biography	
—on the 100th anniversary of his birth—	
Kin-ya HONDA	141
Quelques remarques sur les «Éléments d'Histoire des	
Mathématiques» de M. Bourbaki	
Tamotsu MURATA	169
